Velocity Quartz

Choose from our extensive collection of custom made sunscreens, roller blinds, venetians and vertical blinds

Aluminium Venetian

Venetian blinds give variable light control with slats that can be tilted, raised or lowered. Our range includes aluminium, wood and timberlook venetians.

Sunscreen and roller blinds are easy to operate and allow you to position your blind at any height on your window.

A flat bottom rail with a co-ordinating decor strip on our black roller blind is a smart new look for sunscreens and roller blinds.

Double roller blind

Back roll roller blind

A double roller blind gives you the best of both worlds. A sunscreen to provide privacy and help protect your furniture against harmful UV rays. And a blackout blind to darken the room for sleep, computer use or privacy at night.

Sunscreens are available in 3%, 5%, or 10% weaves, allowing different amounts of light through.

Our design consultants can help you decide which option would best suit your home.
